

## \$50,000 REGISTERED MAIL ROBBERY AT CORBIN

**Pouch, Awaiting Transfer From One Train to Another, Split and Miners' Pay Taken**

(By Associated Press)  
Louisville, Feb. 11—Reports reached here today that the Wisconsin Steel Company was robbed of its pay roll of \$50,000, at Corbin last night. The company operates mines at Benham, Harlan county.

One version from Middlesboro to the Associated Press here says that reports at Middlesboro that three mail bags on train No. 24, awaiting transfer to the Cincinnati train at Corbin, were ripped open and registered letters to the value of \$50,000 were stolen. It adds a man answering the description of a prowler about the Corbin railroad station was caught at Jellico.

Meanwhile another report from Pineville to the Louisville Times asserts that the pay roll of the Wisconsin Steel Company amounts to approximately \$30,000 weekly, and usually arrives on Friday. The money, the Pineville report says, was shipped by a Cincinnati bank.

The Louisville postoffice today confirmed the rumor that a registered mail pouch was stolen at Corbin.

## REDISTRICTING DEAD, SAYS JOHN LANGLEY

(By Associated Press)  
Louisville, Feb. 11—A Post Washington special today says "You may quote me as saying that the reapportionment bill is deadlier than Hector," said Representative John Langley, of Kentucky, after a conference today with Representative Newton, of Missouri, and Senator Lodge, republican leader. Langley said Lodge has agreed that the bill will not be reported out of the Senate. The reason for smothering it, the Post's correspondent says, is that it probably will jeopardize the political existence of republican members of Congress from Kentucky and Missouri, and adds that it means their legislatures will not have a chance to redistrict either state.

### LOWDEN DECLINES

(By Associated Press)  
Washington, Feb. 11—Former Gov. Lowden, his friends here say, has been offered and declined the post of Secretary of the Navy, in the Harding cabinet.

### EGG SLUMP

The egg slump has hit Richmond, too. A dozen eggs which cost you 60 cents hardly over a week ago can now be bought from 27c to 30c a dozen, according to which grocery you are doing business with. Wholesalers are buying them from the producers at 23 cents a dozen. Eggs are now said to be lower than they have been for the past two years.

### Bride Offers Supposed Thug \$85 to Kill Her Husband

(By Associated Press)  
Philadelphia, Feb. 11—Mrs. Edna Murphy, 19, bride of eight months, today was held in \$5,000 bond on a charge of plotting to kill her husband to get \$1,500 insurance money. She confided her plan to a young man, who notified a police detective who, posing as a thug, offered to kill her husband. Witnesses today said she gave him \$10 on account and offered \$75 more when her husband was slain.

### Reduction Helps Restaurants

(By Associated Press)  
Louisville, Ky., Feb. 11—"They aren't totting their lunches this year," say managers of cafeterias here in discussing the question of whether or not office workers in Louisville are as frugal as during the war and the subsequent high price period. The general reduction in food prices, they agree, has proved beneficial to the restaurant men.

## JOHN WALKER BALLARD DIES IN NEW MEXICO

**Prominent Young Man Succumbs to Great White Plague, Contracted in the Army**

Sudden, though not altogether unexpected was the news Friday evening of the death of John Walker Ballard, son of Mr. and Mrs. J. W. Ballard, which took place in Tucumcari, New Mexico, Wednesday, after a long illness of tuberculosis, supposed to have been contracted while in the army.

Two years ago his mother went with him to Asheville, where they spent several months, without any marked improvement. Physicians then advised a change to Tucumcari, but he failed to rally to the treatment there and death relieved his suffering.

John Walker was loved by his associates for his affable manner. He always had a pleasant smile and cheerful greeting for every one and just why he fell asleep at the zenith of his usefulness, when prospects were brightest and when he had everything to live for, man knows not, but shall know hereafter.

The loving and affectionate devotion and administrations of his faithful mother, whose idol he was, were pathetically beautiful. She has been constantly at his bedside, never having left him during the two years' illness.

Funeral services will take place Saturday afternoon at the grave in Richmond cemetery, the body arriving at noon. Dr. R. L. Telford will conduct the service.

Mr. Ballard was about 37 years old and is survived by his father and mother, and two sisters, Mrs. Mason Dunn and Miss Mary Ballard.

## OTHER COUNTIES STILL AFTER FEDERAL AID

**Committee Sent to Washington to Secure Reopening of Highway Thru to Hardyville**

Five of the seven counties interested in the proposed Federal Highway through Lancaster and this section of the state were represented at the road meeting held at the court house in Danville on Tuesday. Mr. J. E. Robinson, of Lancaster, president of the road organization, was chairman of the meeting, and Henry McElroy, of Lebanon, was the secretary. About 25 representatives from Garrard, Boyle, Marion, Green and Taylor counties were present, says the Danville Messenger.

Quite a number of speeches were made and it was the consensus of opinion that the federal government can be induced to approve the highway through this section. It was stated that an official has recently disapproved the proposed road, but in view of the fact that all necessary funds are ready to build the highway that the government would reconsider the matter if the question was properly put before the department at Washington.

A motion was adopted authorizing the chairman to appoint a committee to go to Washington and present the claims of the various counties to the department of roads, and the following were named: Henry L. McElroy, of Marion; Woodson Lewis, Green; Vernon Richardson, of Boyle; and Judge L. L. Walker, of Garrard county. These men were asked to go to Washington at the earliest possible time and ask that the disapproval of the project be changed.

A motion also passed at the meeting to the effect that county judges of each of the seven counties appoint one representative each to form an executive committee for the purpose of working on federal highway project. W. P. Myers, of Marion, and J. A. Check, of Boyle, were suggested as two of the members of the executive committee and others will be named later.

### BRASSFIELD

Mr. and Mrs. Charley Berryman are receiving congratulations over the arrival of a little daughter.

Miss Lucille Rice has returned to Lexington after a few days visit with her parents.

Mrs. Kathleen Broughton and children of Valley View, spent the weekend with Mr. and Mrs. M. M. Broughton.

Little Lucy B., the daughter of Mr. and Mrs. S. Johnson, who has been ill for quite a while, is very low at this writing.

Mr. and Mrs. J. P. Johnson, of Irvine, Mr. and Mrs. A. J. Johnson, of Ravenna, and Mr. and Mrs. T. P. Redmon, who have been visiting his parents in Alabama, and Miss Annie Johnson, who was attending school in Lexington, were called home to the bedside of their little sister, Lucy B.

Those on the sick list are: Mrs. Joe Stivers, and Mr. E. C. Covington and Mrs. Sam Jackson.

Miss Ara Turpin and little Elma Tudor had a narrow escape last Wednesday afternoon when returning from the mail box. Their horses were frightened and they were thrown. The doctor was summoned and found that Elma had a dislocated shoulder. Tommie Ford and Ernest Ford, of McLean, Ill., are visiting relatives here.

Mrs. Ford and Mrs. Johnson spent Wednesday in visiting the sick. Mrs. Mellon and Mrs. Todd are improving slowly.

### SCREWS HOLD BONE IN

**LITTLE SKATER'S LEG**  
Louisville, Feb. 11—To repair shattered bones in the leg of little Jesse Schook, upset by coasters while skating, it was necessary to remove the flesh and secure the parts with screws. Surgeons say that these may be removed in time, and that he will regain use of the member.

## BOLZAK ADJUDGED INTOXICATING DRINK

**Circuit Court Fines \$20 and Costs For Its Sale in Town—Murder Trial February 28**

A jury in circuit court has adjudged that Bolzak is an intoxicating liquor. Thus the mooted question has been settled as far as local sales are concerned—unless some other jury should come along and rule that it is not. For the uninitiated it might be well to explain that Bolzak is supposed to be a patent medicine of some sort, the principal virtue of which, it is said, is its large alcoholic content. Police here say that there has been quite a demand for it created among those who have been unable to secure anything else with a "kick" to it. Anyway, Cinda Lamb, of this city, was fined \$20 and costs in circuit court for selling Bolzak. She had appealed from a previous conviction in the Richmond police court, on the ground that selling Bolzak does not come within the precincts of the prohibition law.

The case of Ollie Mainous charged with disturbing a pie supper out in the county, was reassigned for trial on February 28th.

Sallie Johnson, colored, charged with the murder of her lover, Holt Elmore, by stabbing him with an ice pick, entered a plea of not guilty and had her case assigned for trial Feb. 28th. She is in jail without bail.

Frank Williams, charged with housebreaking, will also have his trial on the 26th.

The grand jury completely exonerated Jack Hardin, and refused to indict him on a charge of assault and battery preferred by a negro man, whom Hardin sought to question in his capacity as a police officer of the city.

The grand jury refused to indict Squire Williams on a charge of violating the local option law.

When the case against Joe Powell charged with operating an illicit still was called, it was suggested to the court that he is dead, so the case was stricken from the docket.

James Addison was given a fine of \$100, 40 days in jail and disfranchisement on a charge of carrying concealed a deadly weapon.

Tom Todd, colored, was given a year in the penitentiary on a charge of deserting his infant children.

A jury found Millard Mulligan not guilty on a charge of false swearing.

## GRAND JURY SENDS IN 37 INDICTMENTS

One of the features of the present term of the Madison circuit court is the hard work which the grand jury is doing. Already 37 indictments have been returned and more are said to be on their way. A big batch was brought into court on Friday, a large number of them being for gambling in town in various ways. There are said to be several indictments for illicit sale of liquor also.

Judge Shackelford gave the members of the grand jury an extra instruction on Thursday in regard to perjury. He told them that every man must be taught to respect the sanctity of the oath and that the grand jury ought to watch carefully and see that the law against false swearing is not violated.

At the same time he told the grand jury that the jailer had reported that James Shepard had escaped from the road gang. This, the Judge said, is an offense, and an indictment should be returned against Shepard for escaping from an officer or from prison, if they found the facts as suggested to him by the jailer.

### State's 1920 Oil Output Was 8,679,000 Barrels

Washington, Feb. 11—Production of crude petroleum in Kentucky last year was 8,679,000 barrels, according to preliminary statistics announced Thursday by the Geological survey. The figures do not include oil consumed on leases.

There were 8,000 producing wells in Kentucky on October 1, with an average daily production of 3.1 barrels each a day.

### Weather For Kentucky

Cloudy tonight and Saturday; not much change in temperature.

### Today's Livestock Market

Cincinnati, Feb. 11—Cattle receipts light; market stronger; top packers \$9.75; lights medium \$10.25.

Louisville, Feb. 11—Cattle steady; hogs 600; active; sheep 50; steady; all unchanged.

## GETTING REAL BIG GAME IN FLORIDA

Col. Harvey Chenault, of this city, and Quincy Ward, of Harrison county, are having the time of their lives on their hunting expedition near Fort Myers, Fla., according to word that has been received from there. They got back early this week from a week's hunt in the interior, with a full bag of game, including two deer, a whole flock of wild turkeys, an alligator or two, and a couple of big snakes. Their party is nicely domiciled in a house they have leased in Ft. Myers, but most of the time while hunting is spent far from civilization camping and roughing it out in the woods.

### BURLEY AVERAGE \$14.27

Reports of tobacco sales from all warehouses in the burley district as made to the State Department of Agriculture, for the month of January, show:

Burley tobacco sold for growers—45,022,028 pounds, for \$6,467,891.44; average \$14.36.

Burley tobacco sold for dealers—1,719,640 pounds, for \$24,702.53; average \$14.34.

Burley tobacco resale—2,183,136 pounds, for \$269,985.46; average \$123.6.

Total burley and average—48,224,774 pounds, for \$6,984,579.43; average \$14.27.

### CYCLONE IN SOUTH

Sandersville, Ga., Feb. 11.—The town of Oconee, in Washington county, with a population of 500 persons, was almost entirely destroyed Thursday by a cyclone, according to information reaching here. A number of deaths are reported. A special train has been sent to the scene bearing doctors and nurses.

### M'KEE

Died, January 28, Mrs. Amanda Isaacs (nee Welch). She was sick only a short time and everything was done for her that could be done. She leaves a husband and a little daughter only a few hours old and a host of relatives and friends.

William Fowler has sold his grist mill to Lakes & Moore at Foxtown.

Robert McQuinn, of McKee, committed suicide by shooting himself through the heart. He had spent the night with Mr. and Mrs. John Holcomb near town and early in the morning he asked Mr. Holcomb for a gun, saying he wanted to kill a rabbit, but he had only gone a few steps from the house when the report of the gun was heard, and before they could get to him he was dead. He leaves a wife, one daughter and two sons. His son, Willie, was buried here two weeks ago. He died while serving his country in France. Mr. McQuinn's body was interred in the family burying ground.

Mr. and Mrs. Brown Farmer will move to Annville soon. Mr. Farmer, with Dr. Johnson and a Mr. Davis, have bought out the Nantz and Johns stock of goods. The people regret very much to give Mr. Farmer and his family up, as they are excellent citizens.

### SIGNAL SHOTS RESULT IN ESCAPE OF MOONSHINERS

Pikeville, Ky., Feb. 11—Raiders captured a still on Robinson Creek, but signal shots fired by a lookout resulted in the safe exit of the operators. Dock Keel was arrested on suspicion. During January the sheriff destroyed 29 stills in this county.

## COULDN'T FIND STILL AT BIG HILL

**But Portion of One Was Uncovered in Rockcastle and Real Outfit in Tennessee**

Returning from a two days' raid in the Big Hill section of Madison county and south of Berea over into Rockcastle county, a party of prohibition enforcement officers out of the Lexington office, and headed by Chief U. G. McFarland, reported that the only thing they got was part of an old still. This was found in Rockcastle county and destroyed. The fermenter and other portions of the still were discovered, back in the hills, but no liquor, and there was no evidence upon which the officers could base an arrest.

The raiders made their headquarters in Richmond on these trips. The first day out, the officers combed the Big Hill section of Madison county. Reports have been coming for some time that plenty of moonshine was being made in that section. The officers climbed hills and valleys all day in mud and rain, but couldn't find a trace of a still. They returned to Richmond for the night, then caught an early train for the south and invaded Rockcastle county, and put in another day in mud and rain, with but scant reward.

In the crew who were raiding besides Chief McFarland were Revenue Officers Joe Kavanaugh, Ben P. Epps, C. L. Winfrey and Steve Cornett.

Just before coming into this section the officers made a real haul in Tennessee, south of Knoxville. They left Knoxville at midnight, rode for 70 miles in automobiles, and reached their destination at daybreak. They found what they said was the most complete amateur barroom outfit that they have yet encountered. In addition to an up-to-date still for making moonshine whisky, the interior of the house was fitted up for its sale in style that was approved before the dry days set in. There was a bar, with a rail in front and other conveniences for the patrons. Over the door hung a Winchester rifle with other arms scattered about. About 250 gallons of whisky was seized. The surprise was complete, the officers making the seizure before the owners could offer the least resistance. The whole thing was destroyed and the men taken before federal court officials in Tennessee for hearings.

## PROMINENT WOMAN DIES IN GARRARD

Mrs. Susan H. Moberly died Friday February 4th, 1921, at the home of her daughter, Mrs. John E. Anderson, in Point Leavell, with whom she had been living for several years.

Mrs. Moberly was the only daughter of F. W. and Mary A. Camp and was born Point Lick, February 2, 1847. June 15, 1865, she was married to W. A. Moberly, who died in 1904. She is survived by two brothers, Robert F., and James T. Champ, of Point Lick, and two daughters, Mrs. J. Thomas Ralston, of Point Lick, and Mrs. John E. Anderson, of Point Leavell.

She was a consistent christian—was a member of the Fairview Christian church at the time of her death, and had been a member of the church for forty years. Funeral services were held at the home Saturday afternoon, Rev. Holder, her pastor, conducting the service. She was laid to rest by loving hands under a mound of beautiful ferns and flowers in Point Lick cemetery.

### HANGED IN CHICAGO

(By Associated Press)  
Chicago, Feb. 11—Edward Brisbane was hanged in the county jail here this morning for the murder of Wm. Mills, manager of a motion picture theatre. Mills was killed in a hold-up of the theatre box office.

## JUROR'S SON IS BADLY BURNED

W. O. Burke, who is serving on the petit jury at the present term of circuit court, was called to his home shortly after noon Friday by a serious accident sustained by his young son. The lad was playing with some powder near a stove, it was reported, and it exploded, severely burning him.

Mr. Burke was considering a case in court at the time, but Judge Shackelford considerably excused him immediately so that he might go to his child. Mr. Burke is one of the best known farmers in that section of the county, being a partner of Tom E. Baldwin, Jr., in large operations.

## LUTHER POWELL IN SOUTHERN BANK

Luther Powell has accepted a position as bookkeeper in the Southern National Bank and is welcoming his many friends, who are congratulating him upon his affiliation with this popular and progressive institution. Mr. Powell has been with J. H. Oldham in the hardware business for a number of years. He served in France during the war and made a fine army record. He has a wide acquaintance and connection all over the county and is very popular with all, standing high in business and social circles.

## FAMOUS MALE QUARTET COMING

The Orpheus Four, billed as America's Finest Singing Quartet, will be the attraction at the Normal School auditorium Saturday night at 7:30. This is third number of the Lyceum Course offered to the students of the Normal this year. Edwin Whitney and Dr. Ng Poon Chew have already appeared in Richmond this season. Miss Margaret Stahl and Green Frank will be here later in the year.

Due to the size of the student body and the limited seating capacity of the auditorium, the committee in charge of the course is not making an active campaign to increase the attendance Saturday night. If all students entitled to attend the course without extra cost to them are in attendance, the seating capacity will be exhausted. Reservations, however, are being made for those who hold season tickets.

## DR. AINSLIE'S COMING ATTRACTS INTEREST

There is every indication of a community wide interest in the series of sermons to be delivered at the First Christian church next week by Rev. Peter, Ainslie of Baltimore. At a recent meeting of local ministers an arrangement was made to have a good union service of the uptown church, to hear Dr. Ainslie on Sunday night. Few men in the country have had a wider interdenominational influence than this eminent churchman and his hearing is certain to include large numbers of members and workers of all churches of the city. The various ministers have been asked to have part in the devotional exercises of the meetings and a big choir which will include the best voices in Richmond will lend the music.

An indication of the local interest is the cancellation of a number of social functions which were to have occurred next week so that the community interest may focus on religious affairs.

The afternoon services will be held at 3:30, while the evening services will be held at 7:30. Invitations have gone to the churches in the neighboring counties and visiting parties from these churches are expected to be attracted by Dr. Ainslie.

## MAYS MAY COLLECT A MILLION FOR STATE

More than \$1,425,000 will be collected by Kentucky in ad valorem taxes on oil properties in Estill county, if the judgment of the E-still circuit court holding that the companies are liable for ad valorem taxes is sustained by the court of appeals. Owners of oil properties resisted payment of the ad valorem tax on the ground that the one per cent tax on the market price of the oil is in lieu of all other taxes.

The suits to collect the ad valorem taxes were brought by W. O. Mays, revenue agent, who estimates that the state will collect between \$8,000,000 and \$10,000,000 in ad valorem taxes on oil properties in the oil producing counties of the state.

### MATTEWAN TRIALS ON

(By Associated Press)  
Williamson, W. Va., Feb. 11—After more than two weeks' preliminaries, the Mattewan battle trials began this afternoon with 19 defendants present. The smiling indifference of the defendants was changed to unmistakable earnestness when a deputy sheriff was instructed to see that none left the court room.

### SUGGESTS SIDEWALKS ALONG COUNTRY ROADS

(By Associated Press)  
Chicago, Feb. 11—Foot paths or sidewalks along every heavily traveled automobile road are needed, according to Edward N. Hines, of Detroit, a county road commissioner, in an address before the American Good Roads Congress here today.

Mr. Hines stated that every city or county now planning the building of roads should provide a place where a pedestrian would be safe to travel as well as a road autoists would seek.

Those counties to the southwest of Madison are not content with the federal ruling against improvement of the pike from Richmond to Lancaster and on thro Danville to Hardysville in Hart county. They held a meeting at Danville this week and appointed a committee to go to Washington and take the matter up with the federal road department. Madison's fund for her portion of the highway has already been distributed to the private contributions. It is practically certain that nothing can be accomplished this year, anyway, so that if the delegation to Washington is successful in getting the matter reopened and the highway reconstruction approved by the government, undoubtedly old Madison can be relied upon for her portion next year. After the federal roadway along the Lexington pike is completed and Madisonians see what a great thing a real paved roadway is, it isn't going to be nearly so hard to raise road funds anywhere in the county, or get favorable votes on road propositions.

### Dollars and Cents

Counting it only in dollars and cents how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months. reb

### CONSTIPATION

**DR. CALDWELL'S Syrup Pepsin** is a combination of simple laxative herbs with pepsin that quickly relieves the congestion of indigestion and restores the normal regularity of natural action. It does not gripe or cramp and is as safe and pleasant for children as it is effective on even the strongest constitution.

Dr. Caldwell's Syrup Pepsin is the indispensable family remedy in thousands of homes. It is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

### Christian County Jersey Makes New State Record

What is said by dairy authorities at the State College of Agriculture to be the highest milk and butter fat record that has ever been made by a yearling heifer in Kentucky has been reported from Jersey, Blue Bell's Sarah Ann, 452841, in the herd of rs. H. H. Fletcher, Pembroke. The cow started her official record when she freshened at the age of one year and five months and during the year she produced 8,219 pounds of milk and 429 pounds of butter fat, equivalent of 505 pounds of butter.

Mr. and Mrs. Fletcher, who had had no experience in conducting an official test, fed and milked the heifer throughout the year. They were assisted by Assistant County Agent H. C. Cress of Christian county.

### RECOGNITION OF FAITHFUL WORK

Having served more than 24 years in the field work of the International Harvester Company, William Howard, of this city, has just received notice that he has been retired by the company on a salary pension for the rest of his life. He will be succeeded in this territory by Mr. J. W. Clark, who will not have his headquarters at Richmond, however, but will travel the 10 counties of Mr. Howard's old district.

During his more than a score of years with the International, Mr. Howard has sold perhaps more farmers' machinery than any other man in this part of Kentucky. He has seen the latest type of improved farm machinery developed from the crude implements of a quarter of a century ago, and throughout the years has kept in touch with such development, until there isn't a man anywhere better versed in the actual needs of a present day farmer in the machinery and tool line than he. The company pays him the highest of compliments in its letter notifying him of his lifetime pension.

## FORDSON

Hitherto the farmer has woven the power of his own muscles with those of the ox, the mule, and the horse, in the development of agriculture. Practical machinery for farming has come to him slowly. Where the value of machinery in labor saving, in profit-making, in usefulness, in comforts, in luxuries has in the past been largely confined to the towns and cities, it is now open to the farmer who is beyond all question the very bone and sinew of civilization. Civilization grows upon the land, therefore the land is Father and Mother and Sustainer to the human race, and those who till the soil, who plow, reap and sow, are surely the essentials in human existence. Therefore, Machine Power on the Farm is of the utmost importance and the Fordson Tractor comes to the farmer as the best, we believe, piece of machinery that has yet been devised for his use.

We want you to read the book "The Fordson at Work." It is free for the asking. Call in and get one. Drop us a card and we will mail you one without charge. This booklet is along the line of the usual Ford way of giving the testimony of the users, those who have tried out and know the real value of the Fordson Tractor. This book shows the Fordson at work in some ninety lines of activity and to the farmer it presents the most valuable evidence of an all-around serviceable, economical, labor-saving machine that has ever been placed upon the market. We can only get so many each month, so leave your order now.

## The Hardest Job in Every Business

In nearly every line production has been increased on account of the war. The hardest job ahead is to find a market in peace times for what those factories turn out. Money is made—not in manufacturing—but in selling. Yet selling seldom receives the attention it deserves.

The number of factories a manufacturer can build—the profit he can earn—are limited by the amount of merchandise for which he can find a profitable market.

If demand can be kept ahead of production, a profitable market is sure. And the one way to keep demand ahead of production is by advertising—teaching the public to use more of your goods.

In the past the South has bent her energies on manufacturing. The marketing of her products were largely left to others who took the raw materials and staples and converted them into specialties, trade-marked, advertised and sold them. And, invariably, it is the selling of specialties that pays the wide margin of profit and the selling of staples that pays the slim.

Greater profits—keeping conditions in our hands instead of on them—depend upon our marketing our goods as well as upon our making them.

The South's cotton goods should be known by brand-names in Detroit just as we know and buy the various makes of automobiles produced by the citizens of that enterprising Michigan city.

Lumber, of which the South is the Nation's greatest possessor, will be needed for reconstruction and the merits of our various woods should be convincingly told by advertising.

The South is the greatest fat-producing section of America. In the vegetable oils from her cotton-seed, peanuts and soy beans she produces more fat than all the dairy cows of America—more fat than all the hogs slaughtered in a year. More Southern-made and marketed compound lards and salad oils would bring additional millions into Dixie.

Cane syrups, coffees and all the other epicurean delights for which the South is famed would find a bigger demand if backed by adequate advertising. And such a demand would automatically fix a profitable price.

Marketing our products as well as making them would furnish work for the hands and brains of our returning sons—provide room for the tallest ambition and stop the emigration to the North and West of the talented and ambitious.

There was a time when we could sell the merchant and let him push the goods. But today the hardware, grocery and drug stores will carry from 2,000 to 10,000 different items. Pushing any one is impossible.

Wise manufacturers are marking their goods so that they can be recognized—telling the public about their merits and inducing the folks to pull them off of the shelves. And in this respect, at least, an ounce of "pull" is worth a pound of "push."

The advertising agencies of the South have had years of experience in advertising and marketing many commodities. They know the methods that have proved successful, because their whole time is engrossed with the problems of selling.

Their contact with leading manufacturers in many lines has made them intimate with various methods of winning trade—methods of securing distribution—fighting substitution. It is their business to know how business is being built.

Their services cost nothing. They are paid a commission by the publishers to make advertising profitable to the manufacturer. It will be a revelation to many business men to know the varied forms of assistance these agencies can render—information on markets, containers, trademark law, distribution methods, dealer cooperation, service in preparing booklets, copy-writing and real information on the value of different classes of advertising media.

Write, wire or phone any of the accredited advertising agencies of the South and arrange a conference with them to discuss how to increase sales. Let them help you solve the hardest job ahead.

## SOCIAL AND PERSONAL

There are hundreds to tell you it can't be done;

There are thousands to prophesy failure;

There are millions to show you, one by one,

The dangers that will assail you.

But just buckle in with a grin,  
Then take off your coat and go to it.

Just start in to sing as you tackle the thing

That can not be done—and you'll do it.—Selected.

## IN THE MOVIES

Real Folks, Real Story, Real Fun

But the story's too good to spill here. It's full of little spine-tugging thrills, and stray tears, and plenty of good old-fashioned guffaws. The homeliest man in Briggs City wins the prettiest girl in the end, and where's the girl in this broad land that wouldn't envy her? Will Rogers, as usual, immortalizes each member of the cast with his own genius for home spun realism. The folks are real folks. The story's a real story. The ranch is a real place. And Will Rogers once more has scored a real success—a success from the viewpoint of everybody concerned, press, public and exhibitor.

At the Opera House tonight.

Many girls who are compelled to earn their livelihood by working in offices are often subjected to the unwelcome advances of their employers. In most instances the motive is obviously born of lustful passion, especially so when the employer is a married man. *"The Veiled Marriage"* shows a big, honest, pure hearted man and a happy marriage result. In *"The Veiled Marriage"* the man—and a married man at that—became tangled in a love affair with his stenographer. There was a pure love and they had the right to this love, strange as it may seem. You simply must see *"The Veiled Marriage"* to know why they had the moral right to love each other and how it all worked out.

"Treasure Island" Made Into Film

By Maurice Tourneur

Robert Louis Stevenson's immortal story, "Treasure Island," has reached the screen. Maurice Tourneur produced it for Paramount. Artercraft release and it will be shown for one day Tuesday next at the local theatres. All the color and spirit of high adventure that is in the Stevenson classic has been retained, and the photoplay has been mounted with Mr. Tourneur's mastery of artistic production.

Playing the role of Jim Hawkins is Shirley Mason. Lon Chaney, Al Filson, Charles Ogle, and Wilton Taylor are included in the cast.

The story, which is familiar to all, has been followed closely in the screen version. Jim Hawkins, Bill Bones, Long John Silver, Ben Gunn—

A Certificate of Membership in the "Invisible" Guest Club of America will be sent to you, signed by Herbert Hoover and Franklin K. Lane, National Chairman and Treasurer; also signed by the State Chairman of Kentucky.

If you will send your check for Ten Dollars, or more, to the European Relief Council, Richard Bean, Treasurer, Board of Trade Building, Louisville, Kentucky, or deposit this amount to his credit in any bank in Kentucky, you will receive an "Invisible" Guest Certificate by return mail.

Will you not join this "Invisible" Guest Club today?

## Chronic Constipation

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not as likely to be followed by constipation.

## LABOR RULES BURDEN COSTS OF R. R. SERVICE

U. S. Railroad Labor Board Asked to Stop Payments for Work Not Done.

WOULD SAVE \$300,000,000

Lower Cost of Service Can Be Secured Only by Cutting Expense, Atterbury Says.

Urging emergency action by the United States Railroad Labor Board to end "gross waste and inefficiency" prevailing under present working rules and conditions, General W. W. Atterbury, vice president of the Pennsylvania railroad, in a statement to the board in session at Chicago said in part:

Many railroads are not now earning, and with present operating costs and traffic have no prospect of earning, even their bare operating expenses, leaving them without any net return and unable to meet their fixed charges.

The emergency presented can be met either by an advance in freight and passenger rates, or by a reduction in operating expenses.

With declining prices and wages in industry and agriculture, the country demands that the solvency of the railroads must be assured by a reduction in operating expenses, and not by a further advance of rates.

The National Agreements, rules and working conditions forced on the railroads as war measures cause gross waste and inefficiency.

Would Save \$300,000,000. I estimate that the elimination of this waste would reduce railway operating expenses at least \$300,000,000. It would be far better to save this sum by restoring conditions of efficient and economical operation than to reduce wages.

We believe that as the wages of railroad employees were the last to go up they should also be the last to come down, but we do insist that for an ample wage an honest day's work shall be given. The public has the right to insist that this must be obtained.

The public has also the right to expect that the railway executives, with the cooperation of the regulatory bodies and the employees, will as rapidly as possible reduce the cost of railway operation so as to insure eventually a reduction in rates.

It rests entirely with the board to determine whether this whole situation shall drift into chaos, and orderly procedure become impossible except at the price of railroad bankruptcy, financial shock and still wider unemployment.

The Labor Board can prevent this catastrophe by declaring that the National agreements, rules and working conditions coming over from the war period are terminated at once; that the question of reasonable and economical rules and working conditions shall be remanded to negotiations between each carrier and its own employees; and that as the basis for such negotiations, the agreements, rules, and working conditions in effect on each railroad as of December 31, 1917, shall be reestablished.

If the board will do this, the Labor Committee of the Association of Railway Executives will urge upon every railroad company a party to decision No. 2, that no proposal for the reduction of basic wages shall be made within the next succeeding ninety days. This will afford an opportunity to gauge the economies which can be accomplished through more efficient rules and working conditions.

It also will afford additional time in which to realize the benefits of a further decline in the cost of living.

Relief Imperative and Equitable. The course which we are recommending is not only imperative but equitable.

The War Labor Board declared that the war period was an interregnum, to be used neither by employer nor employee for the purpose of bettering or impairing the position of either.

To perpetuate as the normal rules and working conditions on the railroads, the extraordinary provisions of the war period is a distinct violation of all promises. The war has now been over more than two years. The time has come when, if the railways are to be efficiently and economically operated, in accordance with the provisions of the Transportation act, normal conditions of employment and working conditions must be restored and increased efficiency of labor be secured.

## PLEASANT HILL

Mrs. Cora Forbes and baby have just returned from Lexington where they have been visiting Mrs. Rosa Lancaster.

Mr. and Mrs. L. J. Forbes, Jr., are going to Newby Sunday to spend the day with Mrs. Forbes' sister, Mrs. W. M. Whitlock.

Mr. and Mrs. John McKinney are expected to arrive from Paris Saturday night to spend the week-end with Mrs. McKinney's mother at Red House.

Mr. H. D. Forbes is in Estill county this week on business.

Mr. John Nuckols has returned to his home in Bell county. He has been visiting his grandfather, Mr. T. J. Kellums.

Judging from the passersby, J. B. Ellison had a good run at his grist mill today.

Albert Stone was to see C. L. Forbes today with the view of buying corn.

## ATTENTION TOBACCO GROWERS

### PLACE ORDERS FOR TOBACCO SEED NOW

The blight wildflower or rust which destroyed so many crops of tobacco last season and so seriously injured many more, has caused a great money loss to the farmers and will cause many who wish to escape or minimize as far as possible this danger in 1921, to consider the quality of the tobacco seed which they will sow this year. If it is determined to sow any, and to inquire carefully as to when, where and by whom the same was produced.

No one seems to know the source or cause of this disease. Some contend that it was produced entirely by weather conditions and that the disease is not transmitted from the plant to its seed, while others believe that whatever may be the source or cause of the disease it may be so transmitted. Therefore, in order to avoid as far as possible the risk of the same trouble in the 1921 crop, all farmers should avoid planting any seed harvested from any crop of tobacco raised on any field or even near any field where the disease appeared, even though in a mild form; and this for the reason that no one knows to what extent it may again appear in crops grown from such seed.

In view of these facts every farmer should try to raise his plants for this year's crop from seed produced from the 1919 crop of tobacco, and avoid, if possible, the use of any seed from the 1920 crop.

It is the "hit or miss" farmer who is willing to take the chance of using such seed.

Our advice is to sow the best seed obtainable, for it is the cheapest and best in the end, and take as little risk as possible this year.

We must admit that we do not know what caused the disease during the past year and have no theory as to how to prevent it except to use care in the selection of seed.

This disease did not appear in the 1919 crop, and therefore we think that the use of seed from the 1919 crop is safer than the seed from the 1920 crop.

It is quite likely that the seed from the 1919 crop is limited in quantity and therefore it becomes the more important for the farmers who desire such seed to secure the necessary quantities as soon as possible and before the supply is exhausted.

Among the well known and leading brands of such seed which has been tested for a number of years in the Burley district and well known throughout said section by the farmers, is "Judy's Pride," produced and sold by W. S. Judy Seed Company, of Lexington, Ky., which has made a business for a number of years of producing this well known and tested variety.

In order to avoid any danger of contributing to the recurrence of rust this company burned and destroyed all the seed produced from their 1920 crop, which was cultivated solely for the purpose of securing the seed.

They are now offering to the farmers only the seed produced from their 1919 crop, of which they have only a limited quantity left. This will go to the farmers in the nature of a "first aid," and gives them an opportunity to avoid whatever risk or loss might result from rust, and they are offering this to the farmer.

This seed was carefully grown and saved from choice stalks only, and the farmers can rest assured that the use of this seed will reduce the danger of loss from rust to the minimum.

## Many a Pretty Face Spoiled by Pimples

Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases that spread and cause the most discomforting irritation and pain. Sometimes they foretell Eczema, boils, blisters, scaly eruptions and other annoyances that burn like flames of fire, and make you feel that your skin is ablaze. If you are afflicted with this form of skin disease do not expect to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S.S.S. today, and write a complete history of your case to our chief medical adviser who will give you special instructions, without charge. Write at once to Medical Director, 152 Swift Laboratory, Atlanta, Ga.

### SHORT MILLION HOMES IN GREAT BRITAIN

Shortage in London Alone Is 150,000 and Rent Sign Quickly Draws Crowd.

It is estimated that London is short 150,000 houses and Premier Lloyd George, speaking in the house of commons, has placed the total house shortage for the whole of the United Kingdom at roughly 1,000,000.

A house for rent notice board in London quickly attracts a crowd.

Housing is a department of the ministry of health and, by legislative act, local authorities are required to submit housing schemes. Thousands of schemes have been submitted, but progress has been very slow.

Perhaps the chief reason for this has been the economic factor. Houses which cost three or four times as much to build as before the war, can not obviously let or sell at prewar figures.

Nevertheless, according to government statistics, some 60,000 new houses were started in 1920 and the number contracted for has risen during the year from 10,400 to 153,301.

One striking feature of the effort to provide for the housing of workers, which was empowered to spend \$30,000,000 spread over eighteen months. Its operations started in Cambridge, a South London borough. An arrangement was made by which, the office of works supplied the plans, material and supervision, while the local Federation of Trades unions supplied the labor and the borough council assumed responsibility for the finances. The plan worked smoothly and houses were built for \$150,000 apiece, a saving of at least \$1,000, making a total, saving to taxpayers of \$2,000,000. This scheme may become the embryo of a state building department.

The financial difficulties connected with the housing problem have been responsible for the creation by local authorities of interest-bearing "housing bonds," which are in some localities a fairly popular investment.

In the north of England, concrete houses have become popular, as machinery largely replaces man-power in their erection. In some parts of London, too, such houses have been built recently, owing to the shortage of bricks, the high rate of wages and other difficulties.

### "LANGUID"—THAT'S THE WORD

Not Sick Exactly, Just Seem to Have No Ambition

An Awful Feeling Seldom Necessary

Pepto-Mangan, the Red Blood Builder, Does Away With Languor

If you don't feel like doing a thing, you won't. If you wonder where some people get all their energy, the answer is from good food which in turn makes rich, red blood.

If your food does not give the nourishment and vigor it should, it is most likely that your blood is so weak that it needs a little extra help for a time to build it up to normal strength.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties. "Gude's" is the genuine Pepto-Mangan. Look for the name "Gude's" on the package.—Adv.

### LUDLOW MAN CHARGED WITH BEATING TEACHER

Covington, Ky., Feb. 11—Sheriff John Conners, of Boone county, and Patrolman Frank Noe, of Ludlow, arrested Earl McNulty, 25 years old, Ludlow, and locked him up in the Covington jail on a charge of assault. McNulty is charged with having attacked and beaten Miss Rose Pemo, school teacher at Constance, Ky., when she was on her way home from school.

### WHISKY BANDITS AND GUARDS IN PISTOL BATTLE

Covington, Ky., Feb. 11—Several shots were fired by Lawrence H. Odenthal, former internal revenue agent and his brother, John Odenthal, Covington postoffice employee, at three men who, with iron bars, attempted to force the doors of a liquor warehouse, South Covington, of which L. H. Odenthal is in charge. The men escaped after having returned the fire.

### For The Children

Too much care cannot be exercised in selecting a cough medicine for the children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. feb

### HEAVY TOBACCO HOLDINGS DESTROYED WITH BARN

Frankfort, Ky., Feb. 11—A barn belonging to Prewitt Graham, containing 40,000 pounds of tobacco just over the line in Woodford county, was destroyed by fire in the night. Forty mules were rescued by valuable feed and implements were lost. A cigarette or pipe is believed to have caused the blaze.
